OVERVIEW

BF-TD512, an IP67 rated DMR radio, is featured with full color screen and half keypad which specially required by some customers. It brings advantages of audio quality, outstanding coverage, and long-lasting battery life. The virtual trunking technology greatly increases spectrum efficiency without any extra costs. It works with BeFone DMR conventional IP Connect system- SDC to realize more powerful features, delivering revolutionary capabilities to keep the team safer and more efficient.

HIGHLIGHTS AND BENEFITS

DMO True 2-Slots

In direct mode these radios support two voice calls simultaneously due to DMR two timeslots, which means two communication paths at 1 frequency with no extra costs or frequency license.

Digital/Analog Dual Modes

Receive both analog and digital signals on a single channel and can automatically switch into the needed mode for efficient communications.

Personnel Safety

Mandown: If some worker slips or falls, the mandown function will automatically activate and transmit a signal to other radios for help. Built-in Lone Worker, and Emergency alarms are also available in case of any accident.

Automatic Roaming (Programmable)

In an IP multi-site network, this feature enables these radios to automatically roam among all sites and stay connected, delivering more flexibility and efficiency.

Advanced Encryption with RC4 Technology

The RC4 encryption technology keeps your communications safe and private, optimizing your information safety.

Smart Virtual Trunking

The DMO Smart Virtual Trunking(SVT) can enlarge the link capacity for higher efficiency

Voice Recording (optional) (32G memory--can record over 400 hours' communications)

Support voice recording and you can play the recording on your radio. This is a radio with a good and long memory.

Radio Priority-Based Interruption

This function enables a radio with higher level to interrupt communications between radios with lower levels, giving higher priority to radios with higher levels. This means better dispatching efficiency.

IP67 Protection

Tightly sealed against dust, spills, sprays and unexpected showers, ensuring outstanding performance in tough environments.
